

PRESS RELEASE

Gardanne, France - November 8, 2022

NEOWAVE expands its range of contact smart card readers “Made in France”

The “Linkeo-Y” is the new NEOWAVE smart card reader model. Available in USB-A and USB-C versions, it facilitates the use of contact smart cards for multiple applications (identity, payment, health, transport, electronic signature, etc.).

A sovereign, safe and easy-to-implement solution

The “Linkeo-Y” is entirely made in France and has obtained the Label “Cybersecurity Made in Europe”. It is easy to integrate into an office or mobile environment thanks to its PC/SC CCID compatibility.

Its main advantages:

- A modern and elegant design, transparent, customizable, light (it weighs only 35g) and compact (65mm x 73mm x 12mm)
- An activity LED
- A “Plug and Play” solution: no software required or drivers to install
- Supports most cards on the market: ISO 7816 class A, B and C cards (5V, 3V and 1.8V), microprocessor cards (T=0 and T=1 protocols) and support for PPS commands
- Wide compatibility:
 - Main OS and browsers (Windows, Mac OS, Solaris, Linux and Android, Chrome, Chromium, Vivaldi, Opera, Mozilla Firefox, Microsoft Edge...)
 - For any type of terminal with USB-A or USB-C port: PCs, laptops, tablets and Android smartphones

CYBERSECURITY
MADE IN EUROPE

Suitable for individuals and professionals

The Linkeo-Y reader allows you to use smart card applications in complete security from home or via your smartphone (online administrative procedures, health, transport, etc.). In the professional environment, it is ideal for entities requiring a high level of security (strong authentication, electronic signatures, management of logical access, etc.).

“The LinkeoA-Y reader has already proven itself to our customers. The Société des Transports de Montréal (STM) has deployed it on a very large scale. Thanks to this product, users can now recharge their transport tickets at home.” declares Bruno BERNARD, CEO of NEOWAVE.

Price: LinkeoA-Y available at €19.99 including tax / LinkeoC-Y at €21.99 including tax

Available on the NEOWAVE store <https://authentification-web.fr/>, on Amazon as well as many partners

About NEOWAVE: Based in Gardanne (Bouches-du-Rhône, France), NEOWAVE specializes in strong authentication and secure transactions. Created in 2007 at the heart of the SCS (Secure Communicating Solutions) cluster, it markets products based on strong authentication technologies. They combine the high level of security offered by the smart card with the advantages of storage and connectivity technologies: USB, RFID / NFC and Bluetooth Low Energy (BLE). NEOWAVE's products address the cybersecurity, digital trust and identity management markets. They are designed and manufactured in France. They are also labeled "Cybersecurity Made in Europe" and comply with the security requirements of European agencies.

NEOWAVE products are 100% Made in France, from the design phase to the production and deployment phases. They are also labeled "Cybersecurity Made in Europe" and comply with the security requirements of European agencies.

NEOWAVE's FIDO2 products have received the ANSSI* security visa. NEOWAVE is a Microsoft partner for its "Passwordless" FIDO2 authentication solutions. NEOWAVE products are also referenced by UGAP.
