NEOWAVE

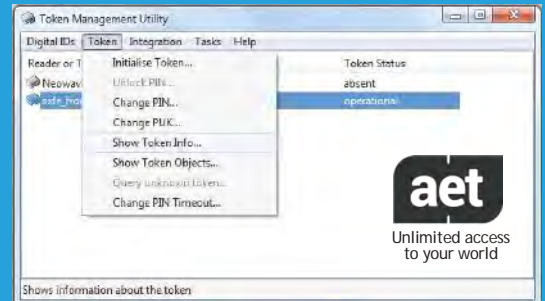

Weneo-A ID 2.0 is a personal device designed to protect access to computer networks and data in mobility. It employs strong authentication techniques using smart cards and constitutes a scalable solution for hosting certificates for encryption, electronic signature and all services linked to dematerialization.

Weneo-A ID 2.0 is compatible with most currently deployed business applications.

Weneo-A ID 2.0 allows a centralised logical rights access management inside your organization.

The tools integrated into Windows and/or those of our partners interface with Weneo-A ID 2.0 products to enable:

- PKI certificate and MIFARE / DESFire key generation
- Enrollment (Weneo/user matching)
- Logical rights revocation (temporary/permanent)
- Reliable access logs management
